

RNC Minerals Extends Unsecured Debt Facility

TORONTO, Aug. 9, 2017 /CNW/ - RNC Minerals (TSX: RNX) ("RNC") announced today that it has extended the US\$2.5 million unsecured debt facility, entered into in November 2016, that was arranged by Riverfort Global Capital ("Riverfort").

Mark Selby, President and CEO of RNC, commented, "This restructuring improves our cash flows in the final portion of the year as we complete the production ramp-up at Beta Hunt. With a 50% increase in mined gold production during Q2 and at least 90,000 tonnes to be processed in two gold milling tolls currently underway, including our first toll under our lower cost tolling agreement with Westgold, we are very pleased with our progress and expect continued quarterly increases in production to deliver our previously announced 2017 production guidance."

Under the agreed terms of the extended facility, the lenders will advance US\$3 million to RNC, US\$1.35 million of which will be used to repay the remaining balance currently owing under the facility (which was originally due to be repaid by November 2017). Principal under the extended facility will be repaid starting in November 2017, with US\$250K due each month until and including July 2018 and a final bullet payment of US\$750K due in August 2018. The facility will continue to bear interest at 12%. As part of the transaction, RNC will issue 5.9 million 24 month warrants to the lenders, exercisable at a strike price of \$0.24 per share.
